

AAYUSH BASNET

MERN Stack / Full-stack Developer

Kupondole, Lalitpur | 9767545057 | aayush9823@gmail.com

[LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFILE

Junior full-stack developer with hands-on experience across the MERN stack and Vue.js, backed by 1.5+ years in technical support and team leadership roles. Recently completed a frontend development internship building production Vue.js interfaces, alongside self-directed MERN projects covering REST API design, authentication, and database modeling. Comfortable owning a feature from database schema to deployed UI.

TECHNICAL SKILLS

- **Languages & Frameworks:** JavaScript, React.js, Vue.js, Node.js, Express.js, Tailwind CSS, shadcn/ui
- **Databases:** MongoDB, PostgreSQL, Prisma
- **Tools & Practices:** Git & GitHub, REST API Integration, JWT Authentication, Linux
- **Support & Systems Tools:** GenieACS, CRM, 3CX, Microsoft Office Suite

EXPERIENCE

Frontend Development Intern (Vue.js) | Aayulogic – RealHR Soft

Mar 2026 – Jun 2026

- Built and maintained production Vue.js interfaces as part of the RealHR Soft product team, translating design requirements into functional, responsive components.
- Collaborated with backend engineers to integrate REST APIs into the frontend, ensuring reliable data flow across the application.

L2 Support – Social Media Team Lead | Vianet Communication

Aug 2024 – Jan 2026

- Led the social media support team, coordinating escalations and ensuring timely resolution of customer-reported technical issues.
- Worked cross-functionally with technical teams using GenieACS and CRM tools to diagnose and resolve connectivity issues at scale.

L1 Support – Technical Expert / Follow-Up | Vianet Communication

Mar 2023 – Aug 2024

- Provided first-line technical support and follow-up for customer issues, using 3CX and CRM systems to track and resolve tickets.
- Developed strong troubleshooting and customer communication skills in a high-volume support environment.

PROJECTS

MERN Portfolio Website

- Developed a full-stack portfolio website (MongoDB, Express.js, React, Node.js, Tailwind CSS, shadcn/ui) with a dynamic, API-driven projects section and a contact form wired to a REST backend.
- Deployed frontend to Vercel with a custom domain and backend to Render, including centralized error-handling middleware.

Food Recipe App

- Built a full-stack MERN application for browsing, searching, and managing recipes, with MongoDB for data persistence and a Node.js/Express REST API.

[GitHub](#) | [Live Demo](#)

Work Management System

- Built a full-stack employee management system with role-based access control (Admin/Employee), JWT authentication, and an automated paycheck calculator, using Vue 2, Node.js, Express, and PostgreSQL/Prisma.

[GitHub](#)

Tic-Tac-Toe & Stone-Paper-Scissors Games

- Built interactive browser games with HTML, CSS, and JavaScript, including score tracking and computer-opponent logic.
